Who we are:

Utah Arts Academy is a premier academic and arts-focused school. By combining rigorous academic programming with pre-professional training in a wide array of arts (theatre, dance, music, visual and media arts), we inspire our students' creativity and thought, while providing an essential and dynamic educational foundation that appeals to any university.

Our Studios: *Acting | Dance | Commercial Music | Visual Arts | Media Technology*

We provide a holistic and dynamic educational curriculum. Our students spend their days immersed in both academics and art. They're building their skills to become creative thinkers in any discipline with a perseverance to curiosity and new ideas. Through a constant cycle of collaboration, work ethic, self-discipline, fortitude, and grit, students are more agile for any university program or artistic endeavor.

3-Tiered Giving Opportunity

Utah ARTS Professional Audio,
Lighting and Instruments

Goal - \$180k

Utah ARTS Perpetual Endowment
- Supporting student learning opportunities

Goal - \$1million

Utah ARTS Professional
Development

Goal - \$50k/yr

Yamaha DC6 Disklavier

No two artists are alike. Disklavier features two patented systems that work together to recreate the intangible, human variations that other reproducing pianos can't. The Optical Sensor System continuously measures the subtle movements of each key, hammer and pedal, while the AccuPlay Technology interprets every detail in real time and adjusts to faithfully reproduce each note.

We can record recitals, concerts or rehearsals, sync them to video and play them back on our piano. Then we save them and share with family and friends. Disklavier makes every live performance come to life.

Yamaha Live Sound

Technological innovation occurs at a breathtaking pace in the world of professional audio. Speaker systems are still the most critical, variable, and problematic link in the audio chain. Speakers interact directly with their environment and other components in the system, making it essential to both use speakers that are properly designed for their application and to set them up so that they and the room function as a well-balanced whole. Yamaha's dedication to delivering the best can mean the difference between average and superlative sonic performance.
